

# Peer Support Program

THE PRESTON ROBERT TISCH BRAIN TUMOR CENTER AT DUKE

At Duke...there is HOPE 

## The Preston Robert Tisch Brain Tumor Center at Duke now offers Peer Support Matching!

We know that the diagnosis of a brain tumor can be confusing and overwhelming. Often, you may feel isolated when going through this journey. The Peer Support Program matches you with another brain tumor patient, caregiver, or survivor. You can connect with someone who has been through a similar experience and understands what you are going through.

Simply fill out the information below and return to your Clinical Social Worker, or fax to 919-668-7884.
